

Little Angel

Music by Christian Willisohn

Lyrics by Alexandra Mayer

Don't tell me that you love me, I smell perfume on your dress
don't tell me that you love me, I smell perfume on your dress
since I loved you baby, my whole life is in a mess.

where ever you're goin', I'm always two steps behind
where ever you're goin', I'm always two steps behind
stop playin' with me girl, I'm gonna lose my mind.

I know I should have left you, long long time before
I know I should have left you, long long time before
but when you smile at me girl, I know I'll never let you go

when you put your arms around me, hold me late last night
when you put your arms around me, love me late last night
I swear and promise baby, I'll always treat you right

oh, love is a devil, with a little angels face
oh, love is a devil, with a little angels face
and I swear that little angel, is sittin' right here at my place.
